General Specifications

Seat: Fully upholstered seat. Interior construction consists of a 1" thick structural wood frame wrapped with 1/2" thick, 2.3# density foam on the sides. Seat base is 2" of high density foam. Customer specifies upholstery fabric(s).

Seat Quarter Back: 9" tall fully upholstered seat back. Seat back is 6" of high density foam at its base and tapers up to 3.5" of foam at the top. The seat back is built on a 1" thick rectangular wooden panel. Seat and seat back are joined by internal posts. Customer specifies upholstery fabric(s).

Steel Legs - Duo-Style (D): Steel post legs are fabricated from 5/16" powder coated plate steel and include a curved profile with a square mounting plate. The bottom of each leg is fitted with a threaded weld nut and 1-7/8" black leveling Glide. Customer specifies powder coat color.

Steel Legs - Round Post (S): Steel post leg is a 16 GA 1-1/2" round 3-1/2"H tube style leg weldment with a 3-1/2" x 3-7/8" steel mounting plate and a 1-7/8" black leveling glide. Customer specifies powder coat color.

Wood Legs: Wood legs are 3-1/3" x 3-1/2" hardwood with a 45 degree chamfer at the bottom edge. Wood post legs are attached 5/16"-18 bolt, washer and propeller nut. Wood legs can be finished in any of our standard wood (Oak, Maple or Sprayon) finishes. Customer specifies wood leg finish.

Castors: (5) 75mm swivel casters are mounted to the base with a square mounting plate. Casters are black.

Self Leveling Glides (JR models): Self-leveling Glides are constructed of heavy duty steel, thermoplastic polyurethane and impact resistant nylon. Average installation height is 1-1/8". Glides are black.
