

General Specifications

Top: Top is 1-1/4" thick, three ply engineered wood construction with .050" high pressure laminate, HPL, and a phenolic backer sheet. All edges are 3mm PVC with 1/8" radius top and bottom. Top is fitted with a 50mm diameter wire grommet.

Case Construction: Cabinet case is constructed of 3/4" thick thermofused melamine/particle board panel material OR with three ply vertical grade HPL with 3mm PVC edge. Case is assembled using glue and dowel construction with blind pocket screw reinforcement where appropriate. Case is mounted to steel frame with threaded fasteners. Structural back panel is 18 ga. perforated steel for ventilation. A grommet may be specified in the bottom panel and/or base of side panels.

Upper Shelf: A fixed upper shelf of 3/4" thick thermofused melamine/particle board panel is provided. The exposed edges are edged with 3mm PVC.

Slide out Shelf: Slideout shelf is mounted near the top of the unit and extends out of the case to the right or to the left from the user side. Shelf is 3/4" thermofused melamine and is mounted on ball bearing drawer slides. Shelf is capped with an arched piece of hardwood that serves as a pull.

Drawers: Two lower drawers are provided. Drawers are constructed of 3/4" thick thermofused melamine/particle board panel material OR with three ply vertical grade HPL with 3mm PVC edge. Drawer hardware includes ball bearing drawer slides and a choice of standard pull styles.

Steel Base Frame: Base is a rectangular welded frame using 1-1/4" square section steel tubing. Casters are mounted into threaded inserts welded into the frame. Frame is powder coated.

Casters: Casters are 75mm twin wheel swivel type with brake rated for a minimum of 100 lb. each.

Finish: Standard powder coat on all metal parts is black; other colors may be specified. Visit our website for Finish and Color Guide for choices.
