

CIRRUS CURVE

Tables

General Specifications

Table Top: Table tops are 1-1/4" thick, three-ply 45# particleboard construction with .050" high-pressure laminate top surface and a .030" phenolic backer. Square corners on banded tops have a 1/8" radius.

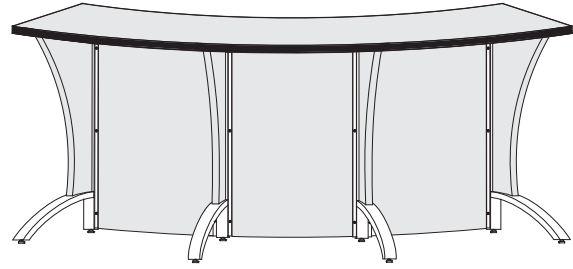

Steel End Frames:

Are weldments consisting of a 14 gauge 1-1/2" x 2" steel tubing vertical leg, a curved 1" x 2" steel tube leg, and a 1/4" x 4" W steel mounting plate. Legs are fitted with adjustable glides. The weldment has a contoured 1-3/16" thick wood panel mounted within it for both structure and appearance. Steel U shaped channels attach to the vertical leg tube for modesty attachment.

Modesty Panels:

Modesty panels are required for structure and are available in wood with veneer or high-pressure laminate finish. Curved, full height modesty panels are formed to match the radius of the top. Modesty panels are attached to the end frame channels with #8 screws & metal fasteners to the underside of the work surface.

Finish: Visit our website for Finish and Color Guide for choices.

Curved table

Curved Tables with Laminate Modesty Panels
